Tubulo-glomerular feedback response 267
Turning 267

U

Uranyl 395
Urinary bladder 299

V

Vagal bradycardia 656
Vascular smooth muscle 493
Vasoconstriction 528
Vasodilation 528
Vasomotor control 348
Ventral septal area 451
Ventricular muscle 83
– myocytes 242, 685
Vesibulospinal neurons 580
Vestibular system 533
VIP 38
Vitamin D3 407
Voltage clamp 38, 565, 610
– clamp-mode 444
– -clamp 644
Volume expansion 511
– regulation 209
– regulatory increase 209

W

White blood cells 372
Work rate 354
Working rat heart 167
Workload 167

X

Xenopus oocyte(s) 498, 682
X-ray microanalysis 378

Z

Zymogen granule 385
